IMPORTANT NOTICE

GIVING UP PARTY LINES IN AN EMERGENCY

The Iowa law relating to intentional obstruction of emergency telephone calls reads as follows: **Section 1.** For the purposes of this Act, the following terms have the meanings ascribed to them: **1.** "Party line" means a subscriber's line telephone circuit, consisting of two or more main telephone stations connected therewith, each station with a distinctive ring or telephone number. **2.** "Emergency" means a situation in which property or human life are in jeopardy and the prompt summoning of aid is essential. **Section 2.** Any person who shall intentionally refuse to relinquish immediately a telephone party line or public pay telephone when informed that such line or telephone is needed for an emergency actually existing as defined in Section one of this act, for use in calling a fire department or police department, or for medical aid or ambulance service, shall be fined not exceeding one hundred dollars, or be imprisoned in the county jail not exceeding thirty days. **Section 3.** Any person who shall secure the use of a telephone party line or public pay telephone by falsely stating that such line or phone is needed for an emergency call shall be fined not exceeding one hundred dollars or be imprisoned in the county jail not exceeding thirty days.

HELPFUL INFORMATION

USING THE DIAL TELEPHONE

1. Look up and jot down the number. Keep it in front of you to help prevent dialing a wrong number.

2. Listen for the dial tone. It lets you know the equipment is ready to handle your call.

3. Dial the number as it is listed. With Touch-Tone service, just push the buttons for the number you want. Be careful not to confuse the numeral "0" (zero) with the letter "O".

In some exchanges you may omit the first two digits when dialing a local call. See Instructions for your exchange at the beginning of your listing section.

After dialing you will hear . . .

The ringing signal—a soft "burr-r-ring" sound repeated at intervals. It means that the telephone you dialed is ringing. Give your party time to answer—about ten rings—before you hang up.

Or the Busy Signal—a steady "buzz-buzz-buzz" sound. It means that the telephone you dialed is in use. Hang up and dial again later.

WHEN YOU HEAR A "BEEP" TONE

If you hear a high "beep" tone over your telephone about every 15 seconds it means the person with whom you are talking is recording your conversation. This signal is provided by the Telephone Company for your protection. Use of a recorder without this tone-warning device is contrary to the Company's tariffs and not permitted. If you do not want your conversation recorded, ask the person with whom you are talking to disconnect the recorder.

ATTACHMENTS to TELEPHONES

All equipment needed to provide telephone service is owned and furnished by the Telephone Company. In the interest of safety and good service, no attachment to the Telephone Company's lines or apparatus is permitted which may . . . (1) damage, require change in or alteration of, or involve direct electrical connection to the equipment or other facilities of the Telephone Company . . . (2) interfere with the proper functioning of such equipment or facilities, or impair the operation of the telephone system, or in any other manner injure the public in its use of the Telephone Company's services . . . (3) endanger the public or the Company's employees.

PERSONAL TELEPHONE DIRECTORY

To help keep numbers handy for placing local and long distance calls, just call or write your Northwestern Bell Telephone Co. Business Office for a personal telephone directory.

If you want the numbers of out-of-town persons or firms, they will be glad to provide them. Send a list of their names and addresses to your Business Office. They will add their telephone number and return it to you.

Your TELEPHONE NUMBER is IMPORTANT

It pays to make it easy for your customers to reach you. Why not include your telephone number on your stationery, statements and advertising pieces? Show your Area Code, too—it helps persons in other cities to call you faster.

TELEPHONE DIRECTORY

If your telephone directory is no longer serviceable, please call your Business Office for replacement at no charge.

Every reasonable precaution is taken to avoid errors in and omissions from the telephone directory, but the Telephone Company does not guarantee listings therein and shall not be liable for damages arising out of errors in or omissions from the directory except as provided for in its filed regulations and tariffs.

OUT-OF-TOWN DIRECTORIES

Directories of other cities can be obtained at a nominal cost. Your Business Office will be glad to order any you wish.

TELEGRAMS by TELEPHONE

In some exchanges, telegrams, cablegrams or radiograms may be phoned to the Western Union Company and charges placed on your telephone bill. Call your Business Office and ask if this service is available in your exchange.

RATES and REGULATIONS

Regulations and tariffs governing the furnishing of services by the Telephone Company are on file in your Business Office. If you wish, a representative will be glad to assist you in obtaining information from them.

LONG DISTANCE Calls

TYPES OF CALLS

STATION-TO-STATION

Call station-to-station if you wish to talk with anyone available at the telephone you call. Rates are lower than person-to-person. (Customers having direct distance dialing can dial their own station-to-station long distance calls.) Charging begins when someone at the called telephone answers.

PERSON-TO-PERSON

Call person-to-person when you want to talk to a particular person or reach someone at an extension telephone. Rates are higher than station-to-station. Charging begins when the called person or someone at the extension answers.

COLLECT

If you want to call "collect", please tell the operator at the time you place your call so she can obtain approval from the person you are calling.

REDUCED RATES

Most long distance rates are lower every night after 6 p.m. and all day Saturdays, Sundays, Thanksgiving, Christmas and New Years.

Lower evening rates apply on station calls on weekdays from 6 p.m. to 8 p.m. and on Saturday from 4:30 a.m. to 8 p.m.

Lowest night rates apply on station calls every night from 8 p.m. to 4:30 a.m. and all day Sunday.

The time at the calling point determines which rate applies.

CONFERENCE

You can talk with several people in different places at the same time. Just tell the Long Distance Operator you want to make a conference call.

OVERSEAS CALLS

You can call practically all the world's telephones from your telephone. Tell the Long Distance Operator you wish to place an overseas call and give her the name of the country and city you are calling. Reduced rates apply on calls to many countries during certain night hours and on Sundays.

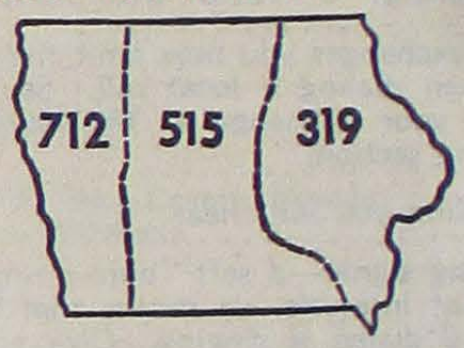

WHEN YOU PLACE A CALL WITH THE OPERATOR. For faster Long Distance service, give the Operator details of your call in this order: 1. The Area Code. 2. The telephone number you want. 3. Your number, when she asks for it.

DIRECT DISTANCE DIALING IN AMES

A new and faster way of placing station-to-station long distance calls.

Ames Telephone users can now dial direct to any one of more than 91 million telephones throughout the United States and Canada.

CENTRAL IOWA IS THE 515 AREA

HOW TO USE AREA CODES

To speed the completion of long distance calls—by customers or Operators—the United States and Canada have been divided into over 100 long distance dialing areas—each with a three-digit number. Customers in this directory are in the 515 area.

These codes are used to call from one telephone area to another when the number being called has two letters and five numerals or seven numerals. It is not necessary to use the Area Code when calling another telephone in the same telephone area.

In Ames, when you dial a long distance call to a city that is outside your own area, it is essential that you also dial the area code or your call cannot be completed. (Do not dial the area code on calls to cities within your own area 515.)

When you place a call with the Operator, give the area code, then the telephone number you are calling.

A list of some 3000 places and their area codes begins on page 4.

AMES CIVIC INFORMATION

HISTORY—The village of Ames came into existence in 1864. That same year the Cedar Rapids and Missouri Railroad was extended to the new Story County settlement. This village was named after Oakes Ames, Massachusetts Congressman and railroad promoter, who had financial interest in the C.R. and Mo. R.R.

The presence of state and federal institutions has been a major factor in the growth of Ames. March 18, 1869 marked the formal opening of the "State Agricultural College and Model Farm". Now Iowa State University of Science and Technology (the name adopted by the 1959 Iowa General Assembly), has an enrollment of 14,000 students.

GOVERNMENT—Ames operates under a Mayor-Council form of government with a City Manager. With this type of city government the City Council sets the policy and the City Manager administrates it. The Mayor is elected for a 2-year term. The Mayor presides at Council meetings, is the chief peace officer of the city and official city host. He appoints the Chief of Police, committees of the council and citizen members of various municipal boards and commissions.

PLANNING—The seven City Plan Commission members are appointed by the Mayor for five-year terms and serve without salary. They employ, with the approval of the City Council, a professional staff. The Commission directs planning for the orderly growth and development of the city by recommending zoning for new areas of the city, attempting to keep non-conforming use to a minimum and recommending zoning patterns that encourage suitable use of the land.

The powers of the Commission are advisory and its recommendations may or may not be adopted by the Council. Decisions of the Council may be appealed to the Zoning Adjustment Board.

WATER—From the original well with a pump and elevated wooden water tank, the Water Department has grown to a plant capable of producing 6,000,000 gallons of treated water a day. Equipment includes six gravel-packed wells, a new 1,000,000 gallon capacity water tower, a new well house and meter pit, a high service pumping station and a new clarifier basin. The University has its own water supply and plant.

MUNICIPAL LIGHT AND POWER PLANT—Ames has had its own municipal light and power plant since 1896. It has been expanded several times to meet the increasing demands of a growing city. The last major expansion occurred in 1948 when revenue bonds in the amount of $2,650,000 were issued. New generation capacity was added in 1958 and plans call for further additions in 1968.

MARY GREELEY HOSPITAL—A donation from Captain W. M. Greeley in memory of his wife, founded the Mary Greeley Memorial Hospital in 1916. The first addition was built in 1937; the second addition in 1961 brought bed capacity to 160.

AIRPORT—The Ames Municipal Airport is located in the south part of the city west of Highway 69. A $270,600 improvement program in 1963 included increasing the length of the main runway to 3,500 feet and its width to 100 feet which accomodates planes as large as four-engine DC-6's.

FINANCIAL—Ames is served by three banks. Bank deposits as of June 30, 1965 amounted to $34,662,039. There is one savings and loan association.

PUBLIC SCHOOLS—The school plant is comprised of sixteen buildings, with a present total new replacement value of $8,893,348.

A stadium with a well lighted football field and an all weather Grasstex track will be completed for use in the fall of 1965. Connected with the stadium will be a high school gymnasium and a joint city-school recreation building housing a 75' x 75' swimming pool as soon as construction can be completed, sometime in 1966. A new elementary school is being built in north Ames near Twentieth Street and Northwestern to serve the children in that area. Pupil enrollment in January 1965 was 5,333.

IOWA STATE UNIVERSITY OF SCIENCE AND TECHNOLOGY—Colleges within the University are Agriculture, Engineering, Graduate, Home Economics, Sciences and Humanities and Veterinary Medicine.

A federal land grant institution, Iowa State has a three-fold function:

1. Resident instruction on both the undergraduate and graduate levels.
2. Extensive programs of research.
3. Extension service in agriculture, engineering and home economics.

The research facilities of the University include the Agriculture and Engineering Experiment Stations, the Institute for Atomic Research, the Industrial Science and Veterinary Medical Research Institutes and the Statistical Laboratory.

The United States Atomic Energy Commission has a major laboratory for basic research on campus, operated as an integral part of the Institute for Atomic Research.

University enrollment for the fall quarter of 1964 was 12,451; the University staff was 4,316.

University land in Ames and through the state totals 7,540 acres with 986 acres in the main campus and recreation areas.

IOWA STATE HIGHWAY COMMISSION—The Iowa State Highway Commission employs 3,400 engineers, administrative assistants and maintenance men in all of its departments. About 850 are located in Ames.

NATIONAL ANIMAL DISEASE LABORATORY—The principal work of the National Animal Disease Laboratory, a facility of the U. S. Department of Agriculture located in Ames, Iowa, is research on the principal diseases of livestock that occur in the United States. About 20 percent of the facilities, however, are used to provide laboratory diagnostic services for some of the Department's disease-control field programs and for the regulation and control of biological products made and sold in inter-state trade by private commercial companies. At present the staff consists of 125 professional and scientific workers and 320 nonprofessional employees, a total of 445 persons.

The laboratory was constructed at a cost of $16,000,000 and the annual operating budget is in excess of $5,000,000.

KEEPING A FAMILY TOGETHER BY TELEPHONE

... SAVES TRIPS, TIME, WORRY.

When you need

A PRODUCT OR SERVICE

If it's furniture just turn to "Furniture" in the "F" section. Look over the list of furniture dealers and then pick the dealer whose message, location, brand names, or other features appeal to you.

Whether you need a plumber or a florist, a TV repairman, a moving van, or any other product or service look under the appropriate heading . . . and you'll find them fast in the Yellow Pages.

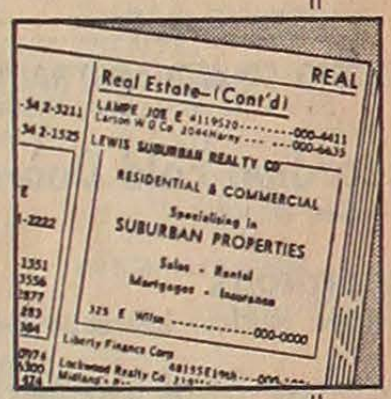

When you want to

FIND A FIRM WHOSE FULL NAME OR ADDRESS YOU'VE FORGOTTEN

If, for example, you have forgotten the name of a real estate company you want to call but remember the address, check the listings under "Real Estate" until you come to the address and you'll recognize your firm.

Perhaps you can remember only part of the name . . . that "Suburban" is in the firm's name. Look through "Real Estate" listings and you'll, no doubt, quickly recognize the full name of the company.

When you want to

FIND A "BRAND NAME" PRODUCT OR SERVICE

If you want to know who handles "Britescreen Television Sets" just turn to "Television Dealers" in the Yellow Pages and look for "Britescreen Television" in alphabetical order, with Britescreen dealers listed under it.

When you want to

FIND FIRMS OFFERING SPECIAL SERVICES

Need a tow truck in the middle of the night? Or a plumber or furnace repairman? You can find them fast in the Yellow Pages.

You can find out which restaurants are open on Sunday, where to get an ambulance or chartered airplane, rent a post hole digger or a wheel chair. A look in the Yellow Pages can answer a lot of questions, save a lot of time and trouble.

EVEN WHEN YOU KNOW THE NAME YELLOW PAGES CAN HELP

AREA CODES and TELEPHONE NUMBERS help speed all long distance calls

Time-saving hint for long distance calls placed through the Operator: the same Area Codes needed for Direct Distance Dialing also help speed calls your Operator handles for you.

Giving her the Area Code along with the number of the telephone you are calling means faster service . . . no waiting while the Operator looks up the Code or calls the distant city for the telephone number.

The first White Pages of this directory have helpful long distance calling information, a list of cities and their Area Code Numbers.

TO CALL A PARTY ON YOUR LINE

Two-party customers dial the telephone number listed in the directory. You will hear a busy signal. Then hang up and your bell and the bell on the called telephone will ring. When the ringing stops the telephone has been answered. Then remove receiver and start talking. If no answer is received, lift your receiver to stop the ringing.

Eight-party customers dial the telephone number listed in the directory. A high whistling tone will indicate the number you have dialed is on your line. Then dial the single figure following the "Pty code" shown on the number plate on your telephone. When you hear the busy signal hang up, and your bell and the bell on the called telephone will ring. When the telephone called has been answered your bell will stop ringing. Then remove the receiver and start talking. If no answer is received, lift the receiver and replace it to stop your bell from ringing.

TO CALL A PARTY ON YOUR LINE

Dial 8—the last digit of your number—the last digit of the called number. Replace receiver. Your telephone and the called telephone will ring at short intervals.
